

How much stuff can be stored in a high box storage bed

How many square feet can a storage unit hold?

There are dozens of storage unit sizes, but they all fall into these three categories. Small units hold up to 50 square feet of belongings, medium units cap out at 150 square feet, and large units can fit as much as 300 square feet. Sizes, dimensions, and details are estimates and may vary by location.

What size storage unit should I buy?

If you have a few small items to store, then the 15 sq. ft. unit would probably be best for you. This is about the same size as a public telephone box. It's a common size for students who just want to store a suitcase or some extra books and boxes. As these units are so small and compact, they are usually the cheapest option.

What size storage unit should I rent out?

Well, if so, you've got one size left - you could always rent out a huge 200 sq. ft., which is the equivalent to a large double garage. There will be very few storage facilities that offer units bigger than this size. You will be able to get a lot of furniture in here, so it's great if you are moving or renovating a house that is quite large.

How much does a storage unit cost?

The average storage unit size is approximately 10 x 10 feet (or 100 square feet). These medium-sized units cost around \$150 per month and can often fit belongings from 1 to 3 bedrooms. What size storage do I need? The size of the storage unit that you need depends on how much stuff you have.
