Solar panel battery storage Buying advice for solar panels

How do I choose a solar panel brand?

It's unusual to choose a specific solar panel brand at the outset. Instead you're likely to encounter different brand options as you get quotes from different installers. Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands.

Are solar roof tiles better than solar panels?

Solar roof tiles are also around 40% less efficient than solar panels, which means your annual savings will be lower. You should only get solar tiles if you have the money to spend and don't like the look of solar panels, or if you live in a conservation area or listed building.

Which solar panels are best for your home?

SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.

Are solar panels a good choice for your roof?

If you want to cover as much as your energy needs as possible, especially if you have a large family, the most powerful solar panels may be your best choice- provided your roof is sturdy enough (you might want to invest in a storage battery, too).
