

# How to deal with old photovoltaic panels purchased

Are old solar panels still useful?

Older, reused and low-efficiency solar panels are still effective for small-scale solar power needs. They can benefit off-grid systems and solar charging devices, and they can even illuminate street signs. Consider donating your older solar panels to a company that specializes in repurposing them.

Can solar panels be recycled?

The short answer is yes, solar panels can be recycled. About 80% of a solar panel's weight is glass and aluminum, two highly recyclable materials. However, recycling solar panels isn't as easy as it sounds. It can be difficult to separate all the different materials for proper recycling because of how solar panels are sealed and constructed.

Can You reuse solar panels?

Yes, you can reuse solar panels. It's often more economical to reuse or repurpose your old solar panels rather than recycle them. This is because reusing solar panels requires even less processing than recycling. The average household uses 893 kWh of electricity every month.

Does first solar recycle solar panels?

First Solar uses a recycling process that recovers about 90% of the materials in solar panels. Its facilities are located in the U.S., Germany and Malaysia. First Solar's process is as convenient as it is effective. We Recycle Solar offers more comprehensive recycling solutions for large-scale companies and manufacturers.

Are end-of-life solar panels recycled?

Find out how solar panels are recycled and where to take your end-of-life solar panels for recycling. On this page: Waste from end-of-life solar panels presents opportunities to recover valuable materials and create jobs through recycling.

How can I recycle faulty solar panels?

To recycle faulty solar panels, enter your zip code and the name of the item (solar panels) on GreenCitizen's website. If you live in the San Francisco Bay Area, the best option you have is to drop off your solar panels at the GreenCitizen recycling center. The process is very easy and efficient, with very convenient drop-off times.
