

# How to quote photovoltaic bracket to customers

What should a rooftop solar quote include?

The main components of a rooftop solar installation are the solar panels, inverters, and batteries. A solar quote should, at minimum, include the brand name and model number for each component and information about the warranty coverage offered for these components. Here's some more information on what to look for:

What is a side-of-pole solar bracket?

A side-of-pole solar bracket is a mounting system used to install solar panels on the sides of poles or posts. This type of bracket allows for easy and secure installation, making it ideal for applications where roof or ground mount systems are not suitable.

What is a top-of-pole solar bracket?

The top-of-pole solar bracket is a mounting system used to securely install solar panels on top of a pole or post. It is designed to provide stability and optimal positioning for the solar panels, allowing them to capture maximum sunlight for efficient energy generation.
