What is HPS Picea 2?

Image: HPS Home Power Solutions AG HPS Home Power Solutions AG has introduced a new version of its Picea system, a hydrogen-based electricity storage solution for residential applications. The 15 kW Picea 2 system offers 1,500 kWh of storage capacity.

Is the HPS Picea 2 better than the previous model?

HPS Home Power Solutions said that the Picea 2 is 70% lighter than its previous model. The overall height is also lower, in order to simplify installation. The system can now also be installed in rooms with very low ceilings. The device is also equipped with new, more efficient power electronics, said HPS Home Power Solutions.

Will HPS expand the production capacity of the Picea systems?

Home Power Solutions wants to expand the manufacturing capacities of the Picea systems. Sales of the Picea all-season power storage units have increased rapidly in recent months. Now HPS wants to expand production capacities, also to shorten delivery times.

How many Picea systems does HPS have?

With the 500 systems installed so far, the company has reached an important milestone in its growth strategy. Demand is increasing. For example, HPS sold 300 Picea systems between its market launch in 2019 and September 2022. The remaining just over 200 systems went to customers in the past six months.

How many kilowatts does Picea generate?

Picea generates eight kilowatts of single-phase electricity which it feeds into the domestic grid. Up to 20 kilowatts can be made available for a short period. This system does not have to be connected to the grid, it can self-sufficiently power a home. The required battery storage is already integrated.

Can a Picea cluster help a sanitary and heating company?

A sanitary and heating company in Meckenheim, for example, is supplied with completely CO<sub>2</sub>-neutral electricity from 5 Picea systems. With a Picea cluster, we will be able to form a "virtual power plant" in future - this will provide a solution for a missing component of the energy transition.

Consisting of a battery, an electrolyser, a hydrogen fuel cell, and hydrogen storage, the HPS Picea<sup>®</sup> combines several of the most promising new developments in the energy industry into one package - unlocking a level of energy autonomy never before seen in a consumer product: 100% off-grid clean and CO<sub>2</sub> free energy, year round, plus, up to 50% ...

Nach der erfolgreichen Entwicklung und Markteinführung strebt HPS nun den großflächigen Vertrieb von Picea an. Die Zollner Elektronik AG sichert dabei mit Ihrer
