*How we worked out your Solar Savings. The estimated savings you can make with our Solar Savings tariff are based on a 2-3 bedroom home with a medium electricity demand of 2,700kWh (Ofgem), installing a 10 panel system with a 3.68kW inverter and a 10.5kw battery via a Good Energy package. It is estimated that you will export 20-25% of the power you generate.

Solar Panel Prices in South Africa. In South Africa, the cost of installing solar panels varies significantly depending on several factors. On average, solar panel installation costs between R70,000 for a modest home to R350,000 for a larger home. These figures encompass the expenses related to equipment, labor, and other installation costs.
