

Ignite power solar Ethiopia

What happened to ignite solar power?

Launched with the Rwanda government support, Ignite's solar-power revolution quickly gathered momentum. By 2019, it was thriving, serving 10,000 villages and connecting over 1.1 million Africans to electricity. Then the pandemic struck. "Those first few weeks were a shock," says Yariv today, from his base in the United Arab Emirates.

How is ignite transforming Africa's energy sector?

Meanwhile, Ignite continues to shake up Africa's energy sector with more initiatives, including a Pay-As-You-Grow irrigation system that enables farmers to tap into their land more efficiently. "Our solar pumps let them double or quadruple their output," says Yariv. "And the model means they only pay during harvest and according to growth in yield."

Who is ignite power?

When Yariv Cohen MBA 2005 co-founded Ignite Power in 2014, it was with a singular mission: to bring nations to 100% clean energy access, starting with Rwanda and enabling remote communities to produce their own electricity. It was a massive challenge, but Ignite's solution was stunningly simple and efficient.

How many clients does ignite have in 2022?

Fast forward to 2022. Ignite now has close to two million clients, is operating in Mozambique, Sierra Leone and Kenya as well as Rwanda, and is in stealth mode with two other countries. It has also made good on Yariv's earlier promise that "as soon as we can do this for \$1 a month, we will".

How many employees does ignite have?

Today, Ignite is serving 12,500 villages. It has 3,500 local employees operating across Sub Saharan Africa (40% of which are women, and the company strives to reach 50% by 2025). It also offers a local executive leadership academy, where staff are trained to move across the different countries of operation.

How much does ignite cost a month?

Ignite now has close to two million clients, is operating in Mozambique, Sierra Leone and Kenya as well as Rwanda, and is in stealth mode with two other countries. It has also made good on Yariv's earlier promise that "as soon as we can do this for \$1 a month, we will". "We're now down to 95 cents, from \$4 a month," he says.
