

# Indonesia tob new energy

Will Indonesia's energy transition be a good idea?

Evidence suggests that Indonesia's energy transition should be well under way. The government has set a target to support renewable energy development in the New Energy and Renewable Energy Bill through increasing on-grid renewable capacity, converting diesel power generation to solar and expanding rooftop solar.

How much money does Indonesia need to finance the energy transition?

To finance the energy transition, Indonesia will need just under \$2 trillion of investment in BNEF's ETS and as much as \$3.5 trillion under the NZS. The full Net-Zero Transition: Opportunities for Indonesia report is available via the following link. BNEF's complete annual New Energy Outlook 2022 will be published later in November 2022.

What is Indonesia's energy transition outlook?

The joint 'Indonesia Energy Transition Outlook' by IRENA and the Indonesian Ministry of Energy and Mineral Resources provides a comprehensive, renewables-focused, long-term energy pathway for the transition to a cleaner and more sustainable energy system in Indonesia.

What is Indonesia's just energy transition partnership?

The USD 20-billion Just Energy Transition Partnership, announced in November 2022, is the developed world's way of acknowledging Indonesia's energy transition challenges. The financing mechanism aims to support the country's economy in transitioning from a fossil fuel-intensive energy system to a sustainable one.

Will Indonesia see a boom in renewables?

Indonesia has not yet seen a boom in renewables, resulting in fossil fuels meeting its electricity demand growth. The National Energy Policy (NEP) 2014 set a target of 23% of renewables in the energy mix by 2025, however, this target is likely to be reduced to between 17-19% in the revised NEP currently being developed.

Will solar be the focus point of Indonesia's energy transition?

Solar will be the focus point of Indonesia's energy transition. Photo by the Asian Development Bank from Flickr. Indonesia's Just Energy Transition Partnership (JETP) is a fund of up to US \$20 billion earmarked for investment in clean energy over the next three to five years.
