Do you like film Wedding photography?

While this sharp, clean aesthetic has become mainstream for wedding photos, you certainly don't have to settle for that if you like the soft, grainy feel of film wedding photography. "Film is more imperfect," Nash explains, noting that this style requires a specific camera that has a limited amount of frames.

Are film wedding photos a good idea?

Plus, for couples who don't want their big day to feel dated by trends, film wedding photos have an effortlessly classic look. "Film has been around for so long that the colors and the images feel timeless," Nash says.

How do settings affect a wedding photography style?

Settings can impact any photography style, but especially direct flash. Before your wedding day, work with your photographer to scope out your venue for the best locations for flash photography. They'll be able to capture great images in just about any setting, but it'll be helpful to know what they're working with ahead of time.

What is direct flash wedding photography?

When compared to film photos, direct flash wedding photography may appear crisper or more modern, especially considering it won't have the same fuzzy or grainy effect (unless added during the editing process.) And if you've always wanted to feel like a celebrity, this could be the perfect photography style for your wedding day.

Is traditional wedding photography right for You?

When you think of traditional wedding photography, you probably envision light colors, bright backgrounds and airy textures. There's no denying this style is beautiful--but it's not your only option for the big day. Just like your wedding itself should be custom-designed to reflect your personality, the same is true of your photography style too.

What is a modern wedding portrait idea?

Most wedding portraits are shot from the front, but this modern picture took a fresh approach as the capture was framed from behind the bride. The movement of the to-be-wed walking, paired with the unique angle, is fun reimagination of an otherwise-classic wedding portrait idea. 36. Astonishing Drone Beach Wedding Photo Idea
