

Who will dominate the global PV module market in 2023?

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 440GW in 2023, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, will supply 66.44GW of modules in 2023, up 42% year on year.

Who are the top solar module manufacturers in 2022?

She wrote about new technology, R&D, installations, markets, and policy on the global website. TrendForce has ranked the top six module manufacturers by shipment volume in 2022, with Longi topping the list, followed by Trina Solar and JinkoSolar.

Does sinovoltaics have a z score?

Did you know? Sinovoltaics has been publishing its PV Module Manufacturer Ranking Reports based on the Altman Z score formula since early 2016 and is the first and only independent source for PV Module, Inverter, and Energy Storage Manufacturer Ranking Reports based on their financial strength.

Where are the PV markets now?

The Covid-19 lockdowns brought back a concentrated PV market, in which more than half of the world's non-residential PV additions were located in mainland China or the United States. Adding on Vietnam, where the commercial segment soared in 2020, the top three markets contributed to 61% of added non-residential PV last year.

How many GW of nonresidential PV systems are installed in the world?

Mainly thanks to strong market growth in China and the United States, they joined the seven integrators that were already in the gigawatt league. In all, the 30 largest EPC providers installed 36 GW of nonresidential PV systems, representing 28% of the global PV market. This is a continued increase from 27% in 2019 and 21% in 2018.

Are India's PV integrators the biggest in 2020?

No Indian companies were among the 10 largest in 2020 and only two - Sterling and Wilson and Tata Power - remained among the 30 largest in the ranking. Source: IHS Markit Out of the 30 largest PV integrators in 2019, 21 installed less capacity in 2020, and 13 even fell out of the top-30 ranking.

Europe is planning a major ramp-up of solar-photovoltaic (PV)-based electricity to address its energy challenges, which include meeting its climate ambitions, managing a large part of its electrification, decarbonizing the ...

Discover the leading solar panel manufacturers worldwide through Sinovoltaics' Ranking Report Edition
