Sol. Almacenamiento InLab pH/Redox 250mL Soluciones excepcionales. Hojas de datos de seguridad (SDS) disponibles. Todas las hojas de datos de seguridad se han creado de conformidad con el SGA (Sistema Globalmente Armonizado).

Storage solution for electrodes Special solution for good and appropriate storage of pH electrodes. Fill the storage vial and insert the electrode, and it will be ready for safe storage over longer periods of time. Electrode storage solutions contain preservatives to ...

InLab(TM) pH Electrode Storage Solution provides optimal conditions to preserve pH probe sensors during the time between measurements and for short- or long-term storage; Probe electrolyte level should always be higher than the sample ...

If an electrode dries out during storage, a regeneration procedure is required to restore the hydrated glass layer and the reference junction in order to make the sensor operable. As a general rule, store your pH sensor in the same solution as the reference electrolyte of the sensor. In most cases, InLab &#174; Storage solution can be used. Sensors ...

The Mettler Toledo InLab storage solution finds its usage in chemical laboratories and healthcare facilities to ensure the safety of the user. User-friendly design and the strong and efficient construction makes it a must to have at your disposal.
