RNG is a domestic energy source that can be captured from wastewater treatment plants, landfills, and large agricultural farms. Innova's team actively manages renewable natural gas (RNG) from the source to pipeline injection to end-user markets. We can help utilities and industrial companies identify RNG sources and capture environmental value.

Hello, my name is Jan, and together with Till, I am the co-founder of Inova Energy. Let me tell you the story of our company. It all began in the spring of 2021 when I met the lively Frenchman Alexander at a beach bar in Costa Rica. After a few beers and a conversation about life and the universe, we decided to travel the country together.

Innova Energy General Information Description. Operator of energy assets located in Britain, United Kingdom. The company deals with utility-scale ground-mounted and commercial rooftop solar installations, located at agricultural, industrial and commercial sites, thereby enabling clients with optimum use of renewable energy assets.
