

Delegates at the Energy Storage Summit EU 2024 in London last month. Image: Solar Media. We discuss a 40MWh project in Finland with both the BESS provider Merus Power and customer/project owner eNordic, the investment manager in the ...

Helsinki and Tornio are emerging as important hubs in the hydrogen ecosystem. Helen, the energy utility of the City of Helsinki, in April announced it has made a final investment decision on building the first green hydrogen plant in the city. To be situated strategically near the district heating network and a busy container terminal, the pilot plant will produce around three ...

The energy sector offers solutions to Finland's problems. We do this by investing in the future and inviting everyone to join in making a change. Our vision for Finland's energy future presents two alternative scenarios: in the best case, we are European champions of the energy transition; in a less ambitious scenario, we are persistent ...

The total investment is larger, including locally built infrastructure and a long-term maintenance contract for the project, the latter also provided by Merus Power. In an interview at Solar Media's Energy Storage ...

GM launches energy storage business. Sand battery tech. Polar Night Energy's tech converts electricity to heat, storing for later use. As per the name, sand is used as the storage medium, which - according to the tech ...

These interviews explore energy storage business cases across the EU, demonstrating that these projects are viable, profitable and essential to achieving Europe's energy security and climate ...

The EUR 5 million investment in the fund by the Finnish Climate Fund will be used to accelerate the deployment of energy storage systems in Finland, supporting the electrification of society and the development of infrastructure ...

United Bankers is a wealth management and investment firm with EUR4.8 billion in assets under management (AUM) while AmpTank is an energy storage developer founded in 2021 with "several" projects under construction or ready-to-build (RTB). ... Activity in Finland's grid-scale energy storage market has picked up in the last few months as ...

The funding round was led by prominent investors OP Finland Infrastructure and the Finnish Climate Fund, targeting Cactus Fleet Finland, the company's battery energy storage investment fund. The fund aims to raise a total of 70 million euros, split evenly between equity and debt funding. Driving Finland's Battery Industry

# Investing in energy storage Finland

The project cost is estimated to be around 200 million euros, and it has already been awarded a 19-million-euro investment grant from Finland's Ministry of Economic Affairs and Employment. Construction of the storage facility's entrance is expected to start in summer 2024. The seasonal thermal energy storage facility could be operational in ...

Finnish investment manager Innovestor has initiated a EUR20 million energy storage project focusing on decentralized systems installed in commercial properties across Finland. This effort aims to address fluctuations in clean energy production by utilizing "behind-the-meter" battery systems, which store solar energy on-site.

AMSTERDAM, June 27, 2024 (GLOBE NEWSWIRE) -- MW Storage AG (MW Storage), a Swiss investment fund experienced in financing, developing, and operating energy storage systems, has selected Fluence ...

Finland: PV-plus-storage on telecom network plays into technology-neutral ancillary services market ... there is scope for the deployment of 15GWh of energy storage at radio access network (RAN) stations. The combination of the two technologies would also advance Europe's decarbonisation and slash the costs of investing in clean energy ...

Institutional Investing in Infrastructure (i3): article extract. Although the sweeping tide of BESS development is encouraging and necessary to meet net-zero goals, BESS sourcing, manufacturing and deployment also comes with its own set of societal and environmental impacts that need to be considered if the renewable-energy transition is to be as just and sustainable ...

Ardian, in partnership with its operating platform eNordic, is investing in Mertaniemi, a 38.5-megawatt, one-hour, utility-scale battery energy-storage system (BESS) in Finland, to support the Finnish power grid.

Join us on October 24th for an expert-led discussion, where we will delve into the latest developments in Finland's energy storage market and explore the investment opportunities ...
