

Is it necessary to install photovoltaic panels after signing the contract

What is a solar photovoltaic (PV) installation?

A solar photovoltaic (PV) installation comes with a proposal and a contract, so if you're thinking about going solar, it's important to understand what you'll be signing.

What makes a good solar installation contract?

Like most contracts, home solar contracts can be filled with all kinds of terms, language, and details that the average person might not be familiar with. A good solar installation contract is designed to protect both you and your solar provider, so it's important to understand the various sections and what they mean.

What should I know before signing a solar energy contract?

Pay special attention to any language that connects you with the installation company, and outlines what you can expect the company to do for you. This guide is designed to provide a clear walkthrough of what you should know before signing a rooftop solar energy contract. What Is a Solar Power Contract?

What is a solar power contract?

A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each.

Should homeowners pay for solar panels upfront?

Homeowners who pay for their panels upfront with cash, or through a solar loan, will see something different than someone who signs a solar lease or solar power purchase agreement (PPA). While solar contracts will differ by provider and project, most of them contain a certain amount of shared verbiage and content.

What happens if I don't sign a solar panel contract?

Waivers: You give up your right to claim something with a waiver. Check your contract to ensure there aren't any waivers you don't agree with. If there are, you should try to amend the contract before you sign, or refuse to sign the contract. **Termination:** This section outlines all the reasons you can legally terminate your solar panel contract.
