Why should you go green on the Isle of Man?

Go green promote clean energy technologies on The Isle of Man. Reduce your environmental impact, one carbon-footprint at a time. Air Source Heat Pumps (ASHP). At a price which does not cost the earth, go green today.

Do solar panels need to be south facing?

Solar panels need to be south facing for maximum exposure. Is your property surrounded by trees or buildings that may cast a shadow over solar panels - this can significantly reduce the amount of electricity generated. And, of course, is your roof structurally sound? Not only will it have to support the solar panels but also the fixing frames.

Below we've summarised the pros and cons of solar PV panels: Pros. Sustainability - Solar panels take energy from sunlight, helping to power your home for free. Lifespan - Solar PV panels can last up to 30 years, making them a great long term energy source. Flexibility - These panels can collect energy even on cloudy days, perfect for the UK.
