Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

Why should you go green on the Isle of Man?

go green promote clean energy technologies on The Isle of Man. Reduce your environmental impact, one carbon-footprint at a time. Air Source Heat Pumps (ASHP). At a price which does not cost the earth, go green today.
