

Israel battery and solar panel kit

How to install solar panels. When setting up solar panels, the first step is contacting a company that installs solar systems. Today in Israel, there are many companies of this type in the growing market, and it is worthwhile to conduct thorough market research and get recommendations from others who have already been through the process.

In my research, solar kits come with a hefty premium, and they aren't as "kit" as one would hope. ... So it would go like this: 74kw 800v traction battery -> V2L connector outputting 1600watt 110v AC -> 30v DC switching power supply -> grid tie inverter -> grid. I'd probably lose 30-40% on all the conversion/inversions, but I think it'll work ...
