

# Italy soltech energy solutions

What does soltech do?

Soltech collaborates with several other actors on the market to find new opportunities for new green energy solutions and how we together create the next generation of sustainable energy systems. Soltech is a solar energy group with combined experience in electrical engineering, roof, facade, charging, storage and solar energy industries.

Who is soltech energy?

Soltech Energy established in 2018 by a team of managers in Emilia Romagna, Italy's hub of the photovoltaic Business. Unlike other solar companies, we immediately oriented ourselves towards foreign markets. Today we sell in over 30 Countries, and have achieved double-digit sales growth year by year.

What makes soltech energy different from other solar companies?

Unlike other solar companies, we immediately oriented ourselves towards foreign markets. Today we sell in over 30 Countries, and have achieved double-digit sales growth year by year. Soltech Energy is not one of those many solar companies which enjoyed extremely rapid growth during the years of photovoltaic boom.

What's going on with soltech?

In terms of operations, a number of major projects were initiated in the Group in which large-scale tech solutions will be delivered to energy companies, property owners and other community builders. In the solar park area, Soltech has a growing portfolio with a potential exceeding 1,000 MWp.

Where are soltech Energy AB subsidiaries located?

Our subsidiaries are located in Sweden, Spain and the Netherlands. Soltech Energy Sweden AB (publ), is listed on First North, Nasdaq Stockholm. The share is traded under the symbol "SOLT" and has about 78 000 shareholders.

Will soltech sell off its solar portfolio?

In the solar park area, Soltech has a growing portfolio with a potential exceeding 1,000 MWp. This portfolio has been built up in recent years and will be sold off on an ongoing basis, as communicated in July 2023. Another sign of strength during the year was organic growth.
