

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector, with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

What is Ayebo biomass power station?

Ayebo Biomass Power Station, also known as a Biomass Power Station, is a 46 MW (62,000 hp) biomass-fired thermal power plant under development in Ivory Coast. Bioenergie SA, a special purpose vehicle company, has been awarded the concession contract to design, finance, construct, operate and maintain the power station.

Will Ivory Coast achieve 45% of its energy mix by 2030?

It is part of the National Action Plan for Renewable Energies 2014-2030 of Ivory Coast which aims to achieve 45% of its energy mix from renewable energies by 2030. The project is a model of circular economy and will have strong social benefits: construction work on the power plant will create at least 500 local jobs.

What is EDF doing to support Ivory Coast's energy transition?

Renewable energy and... As part of its active involvement in supporting Ivory Coast's commitment to the energy transition, EDF is developing an innovative biomass power plant project in partnership with local energy players. Ivory Coast is aiming for an energy mix in which 42% will come from renewable energy by 2030.

Where does Ivorian energy come from?

Solar power is currently a small part of the Ivorian energy mix -- the Boundiali plant contributes just one percent of national production. Nearly 70 percent of the country's electricity comes from gas-fired thermal power plants, while hydroelectric power stations account for the rest, all located in the south.

Where is Ivory Coast's first solar power plant located?

Boundiali (Ivory Coast) (AFP) - The sun beats down from a cloudless sky on the town of Boundiali, where Ivory Coast's first solar power plant embodies the drive to embrace clean energy without abandoning fossil fuels. Issued on: 07/06/2024 - 11:51 Modified: 07/06/2024 - 11:49

"Ivory Coast is not just a key player in West Africa's energy sector; it is a model for what the future of African oil and gas development should look like. With its progressive policies, commitment to local content and willingness to embrace innovation, Ivory Coast is positioning itself as a beacon of sustainable and inclusive growth ...
