

Abidjan, Cote d'Ivoire - 27 May 2024 - The Global Green Growth Institute (GGGI) and the Korea International Cooperation Agency (KOICA) have signed a Grant Funding Agreement of 8,250,000USD to implement a groundbreaking initiative aimed at strengthening the digital landscape of Ivory Coast, fostering green entrepreneurship among the youth ...

The financing of ZECI's (Zola EDF Cote d'Ivoire) "Solar Home Systems" business aims to address this issue by providing solar home systems to off-grid populations in Ivory Coast. ZECI is a company co-founded by EDF and Zola Electric that sells on credit and ensures the maintenance of solar kits to meet the needs of rural off-grid populations.

According to the code of nationality in Ivory Coast "Any individual born in Ivory Coast is an Ivorian citizen unless both parents are foreigners; Any individual born out of Ivory Coast from an Ivorian parent is an Ivorian citizen". The nationality is therefore acquired primarily by the blood and not by the right of the soil.

**Ivory Coast - The Education System** The education system. The education system comprised three stages: primary school lasted six years, leading to a certificate of primary studies; secondary school lasted seven years, leading to a certificate or baccalauréat. University education, available only in Abidjan, culminated in a university degree.

**History and Ethnic Relations** Emergence of the Nation. Very little is known about the early history of Côte d'Ivoire. As early as 1 C.E., the area now called Côte d'Ivoire had become a melting place of various African people. Between the fourteenth and eighteenth centuries, as kingdoms rose and fell, many ethnic groups moved in and settled permanently in the region.

This construction is part of a system that will allow Ivory Coast to improve its meteorological services in response to climate change. The project of modernization of the system of Vigilance, warning and climatic and meteorological services to users (VIGICLIMM) is now on track. The project activities were launched on Friday, October 21, 2022 ...

An agreement has just been signed between the French Development Agency (AFD), the European Union (EU) and the General Confederation of Businesses in Ivory Coast (CGECI). The three partners are offering technical assistance for renewable energy and energy efficiency projects for Ivorian companies with a budget of 1.64 million euros.

(Bloomberg) -- Ivory Coast is setting up a \$500 million green-financing facility to catalyze funding to combat climate change. Backed by the African Development Bank and the Climate Investment Funds, the facility along with other initiatives will help the West African nation reach its target of reducing greenhouse gas

emissions by one third by 2030 while ...
