

Will Ivory Coast get a 52 MW solar plant?

The Ivory Coast government has signed an agreement with infrastructure investor PFO Africa for the financing, construction and operation of a 52 MW solar plant. The project has been billed as the country's largest to date.

Where is Ivory Coast's first solar power plant located?

Ivory Coast's first solar power plant, located in the northern town of Boundiali, was commissioned in 2022. It currently has a capacity of 37.5 MW, but Coulibaly says this is set to expand to 80 MW, with financing for the expansion already approved by the Council of Ministers.

When will Ivory Coast's solar projects be commissioned?

Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW. The country is now working toward deployment targets of 3,500 MW in 2025, 5,200 MW by 2030 and 8,600 by 2040.

How many MW of solar power did Ivory Coast have in 2021?

According to the International Renewable Energy Agency (IRENA), Ivory Coast had 13 MW of cumulative solar capacity in 2021. This content is protected by copyright and may not be reused.
