Will Jersey electricity invest \$120m in the 'largest ever' upgrade?

Jersey Electricity (JE) has revealed a plan to invest \$120m in the 'largest ever' upgrade to the island's network. The firm said the five-year upgrade would support an 'all-electric future' and ensure every home and business could access affordable and sustainable energy.

Will Jersey be net zero by 2050?

The government has shared its plans for Jersey to be net zero by 2050- which includes supporting islanders to switch from oil or gas to low carbon alternatives.

Will Jersey's 'over and above' project 'bear with' customers?

The project would be 'over and above' an existing programme of works, it added, to meet a predicted 25% increase in demand. Mark Preece, chief operating officer (COO) of Jersey Electricity, said customers would see works around the island and this could 'cause frustrations' but appealed for islanders to 'bear with' them.

Jersey Central Power & Light is an investor owned entity located in Morristown, New Jersey and providing electricity to customers in 13 counties in New Jersey such as the counties of Middlesex County, Essex County, Ocean County, Monmouth County, and Union County.
