Ngonye Solar Power Station (NSPS), is a 34 MW (46,000 hp) solar power plant in Zambia. The solar farm that was commercially commissioned in April 2019, was developed and is owned by a consortium comprising Enel Green Power of Italy, a multinational renewable energy corporation, and the Industrial Development Corporation of Zambia (IDC), a parastatal company.

The Ngonye Falls project is a run-of-river hydroelectric power station on the Zambezi River in the Western Province of Zambia. The power station will have 180 MW of electricity generation capacity - adding around 8% to Zambia's total - and will produce 830 GWh per year of cost effective, clean, renewable energy for local demand and export.
