

Jersey renew power in

What is Jersey Renew's?

Jersey Renew's is an organization dedicated to taking strong actions to counter climate change and prepare New Jersey for the future by cutting greenhouse gas emissions, reducing dangerous deadly air pollution, moving toward a truly clean energy future, and creating and securing good, family-sustaining clean energy and green infrastructure jobs. Our Platform

Does New Jersey have a power switch program?

Under New Jersey's Power Switch program, you can change your energy supplier. This gives you the option to buy your power from a company that uses renewable energy. In 2020, New Jersey was the nation's sixth-biggest producer of electricity solar power.

How much solar energy does New Jersey generate?

Overall, solar energy accounted for nearly 7% of New Jersey's total in-state electricity generation in 2022. New Jersey has a goal of obtaining 7,500 megawatts of offshore wind power capacity by 2035 and 11,000 megawatts by 2040.

How much energy does New Jersey use?

New Jersey has a goal of obtaining 7,500 megawatts of offshore wind power capacity by 2035 and 11,000 megawatts by 2040. About 73% of New Jersey households rely on natural gas as their primary heating fuel, 16% use electricity for space heating, and about 9% use petroleum products. The rest use other fuels, including wood and solar energy.

Why did New Jersey establish the Renewable Portfolio Standard?

New Jersey established the Renewable Portfolio Standard to drive the market deployment of new clean energy technologies, recognizing that expansion of renewable energy generation would provide significant economic development and environmental benefits, thereby helping to satisfy New Jersey's air quality and greenhouse gas reduction goals.

What are New Jersey's energy goals?

New Jersey has also enacted aggressive offshore wind targets, calling for 11,000 MW by 2040, and new solar targets. Promoting a diverse portfolio of new clean in-state generation coupled with transportation and building electrification will lessen dependence on fossil fuels, help grow the state's economy, reduce emissions and combat climate change.

The "RENEW process," the first diocese-wide spiritual-renewal process in the country, was so successful in Newark that it soon spread, eventually reaching more than 160 dioceses in the United States and 24 countries. RENEW International was separately incorporated in 1990 and moved into its own facility in Plainfield, New Jersey.
