

Dyness is a global research, development and manufacturing company of solar energy storage battery systems, providing high voltage, low voltage and other intelligent energy storage lithium battery systems for residential, commercial and industrial customers.

Pacific Green has unveiled plans to develop what would be South Australia's largest grid-scale battery energy storage system with the proposed Limestone Coast Energy Park to comprise a 500 MW, three-hour (1.5 GWh) battery energy storage system.

In Jiangsu Yixing Gaocheng Beitou Environmental Protection Industrial Park, the newly opened R & D building of Far East Battery Jiangsu Co., Ltd. is particularly eye-catching. In this land of innovation and dreams, the Far East is accelerating to run at the forefront of the energy storage circuit, showing the power of innovation and dreams.

Our mission is to lead the transition to renewable energy through cost-effective and superior storage solutions. Based on advanced battery technology, we provide the most reliable energy storage solution - from analysing the technical challenge, to designing flexible innovations that meet every customer's unique needs.

Jiangsu ranks first in China's total power battery production, sales, and installed capacity. The province's 163 key enterprises in the power and energy storage battery industry chain reported total output value of 120 billion ...

Janus Electric specialises in electrifying road transport by developing zero-carbon battery technology and a unique exchangeable battery system for heavy vehicles by converting diesel electric trucks. Their solution aims to reduce emissions ...
