

## Jordan boulder 50 solar panel

What is a boulder 50 solar panel?

Boulder 50 is a standalone panel that can be mounted on vans, vehicles, sheds and more. Durable and dependable | Portable 50-watt monocrystalline solar panel built to last and survive. Boulder 50 is designed with an anodized aluminum frame with added corner protection and tempered glass covering, making it weatherproof and lightweight.

Can you use a boulder 50 solar panel with a goal zero power station?

Pair the Boulder 50 solar panel with a Goal Zero power station for a solar charging solution that you can use for camping, work sites, off-grid events, and backup power at home when the grid goes down. Boulder 50 is a standalone panel that can be mounted on vans, vehicles, sheds and more.

Is the boulder 50 solar panel waterproof?

The Boulder 50 solar panel has wires that are exposed on the back, making it not entirely waterproof at those points. However, it can be left out in the rain or shine, and in nearly any harsh weather conditions as long as the inputs and outputs of the panel are secluded from these conditions.

Pair the Boulder 50 solar panel with a Goal Zero power station for a solar charging solution that you can use for camping, work sites, off-grid events, and backup power at home when the grid goes down. Boulder 50 is a standalone ...
