Why did Sembcorp get a Bess project?

The BESS helps to integrate higher shares of variable generation from solar PV onto the grid. It also meant that Singapore's Energy Market Authority (EMA), which awarded the project to domestically headquartered developer Sembcorp, was able to achieve a national 200MWh deployment target for energy storage by 2025.

What is Sembcorp doing with Jurong Island?

Sembcorp is active in international markets including the UK and has an energy storage portfolio of 709MWh. The energy and urban development group gave some more details on the Jurong Island project above what has been previously disclosed.

Does Singapore have mandatory compliance requirements for Bess?

MY: Singapore has not yet formulated mandatory compliance requirements specific to BESS.
