

Non-pressurized solar water heaters with vacuum tubes are a common type of solar water heating system. They use evacuated glass tubes to absorb solar energy and heat water. These systems rely on natural convection to circulate water between the vacuum tubes and the storage tank.

Felicity Solar Kenya is the go-to provider for comprehensive solar solutions, serving homes, businesses, and enterprises. With expert installation support and strong after-sales service, we ensure a smooth switch to solar for any size operation.

Equator Energy is a fully integrated solar power provider. This means that the design, installation, operation, and maintenance of its solar power plants is done in-house. The team consists of over 40 Kenyan installers, all of whom have many years of installation experience, for both ground and roof mounted solar systems.

Kenya has one of the most active commercial PV system market in sub-Saharan Africa, with an installed PV capacity is in the range of 4 MW. An estimated 300,000 rural households in Kenya have solar home systems and annual PV sales in Kenya are between 10,000-20,000 systems.

We are a vertically integrated solar company that offers customers the highest quality solar energy systems and after-sales service, coupled with finance and in-house manufacturing (solar panels and solar water heaters).

Non-pressurized solar water heaters with vacuum tubes are a common type of solar water heating system. They use evacuated glass tubes to absorb solar energy and heat water. These systems rely on natural convection to circulate ...

Solar water pumping (SWP) and irrigation, cooling and electric mobility are gaining attention and traction. Eighty-two per cent of specialist PUE companies in Kenya are working with one or more of these technologies (see Figure 2). Three market segments are evolving in ...

Miale Solar pioneers innovation in solar energy by enabling seamless access to sustainable solutions across Kenya and Africa. We trade in advanced solar photovoltaic (PV) systems and offer market-ready solutions that empower businesses and communities to ...

Equator Energy is a fully integrated solar power provider. This means that the design, installation, operation, and maintenance of its solar power plants is done in-house. The team consists of over 40 Kenyan installers, all of whom have ...

Embark on a new era of sustainable energy with the FelicitySolar Kenya 10KVA 48V Hybrid Solar System, a

Kenya solar integrated units

robust and comprehensive solution designed for reliable and efficient power generation. This advanced system integrates high-performance 450W 34V mono solar panels, a substantial bank of 200Ah 24V Lithium batteries, and two powerful 5KVA 48V ...

If you're looking for solar systems in Kenya for your home, business, school or social enterprise project, we can offer a full end-to-end service; from initial site survey / requirements assessment, right through to design, installation, aftercare and maintenance.
