Since its launch in 2015, Kinewell Energy's cable layout and heatmapping solutions have been utilised by some of the world's largest energy providers on offshore wind projects cumulatively totalling over 13.1 GW and the company is confident that KDOTS will prove to be just as big a success.

Kinewell Energy Ltd. is registered in England and Wales with the company number 08710938, VAT number 220723057, and the registered address Kinewell Energy, Wizu Workspace Portland House, New Bridge St W, Newcastle upon Tyne, Tyne and Wear, United Kingdom, NE1 8AL. Kinewell Energy, Wizu Workspace Portland House, New Bridge St W, ...

Kinewell Energy aims to innovate at scale, speed up, and reduce the cost of transitioning to net zero. The company continues to add scalable value and impact social and environmental challenges. Supported by Newcastle ...

Staff from Kinewell Energy will be travelling to Taiwan, Japan and South Korea this month as part of its increased focus on Southeast Asia, to meet clients, showcase its solutions and visit the APAC Wind Energy

Kinewell energy Micronesia

Summit in Incheon, South Korea, from 26 ...

The appearance, which came during a significant week for UK green energy following Siemens' announcement of a £1 billion investment in the UK, covered a range of crucial topics including Kinewell Energy's contributions to accelerating and lowering the cost of offshore wind, developments at COP29 where Kinewell were featured in the UK ...

Kinewell Energy has also been awarded the "Advanced Good Work Pledge" by the North of Tyne Combined Authority and was named among the five North East companies last month to have secured funding from the Technology, Innovation and Green Growth for Offshore Renewables programme delivered by the Offshore Renewable Energy (ORE) Catapult.

The North East is perfectly placed to capitalise on the opportunities presented by the shift to Net Zero, according to two businesses at the cutting-edge of developing the technologies helping accelerate the global transition to renewable energy.

Kinewell Energy was one of five companies selected by offshore wind giants Equinor, EDF Renewables and the Offshore Renewable Energy Catapult (OREC) to be awarded a share of £1.7m through the TIGGOR programme. Our funded project saw us deliver a new-to-market game-changing technology related to offshore wind inter-array cable systems ...

Kinewell Energy develops and commercialises innovative technologies that add significant scalable value and impact positively on social and environmental challenges. With a mission to pave the way for a greener, more sustainable future we are passionate about nurturing the next generation of innovators in clean technology.

Working with the team at Kinewell, she has since seen her labour of love brought to life in the form of the Kinewell Designing Offshore Transmission Systems (KDOTS) software solution, which launched last year ...

Kinewell Energy CEO Highlights North East's Green Energy Leadership on BBC Radio 5Live by Ruth Finch | Nov 14, 2024 | Kinewell Energy Kinewell Energy's CEO and Founder, Dr. Andrew Jenkins, featured as a key panelist on BBC Radio 5Live's Wake Up to Money program this week, discussing the pivotal role of digital innovation in accelerating the ...
