Solar PV: Solar resource potential has been divided into seven classes, each representing a range of annual PV output per unit of capacity

The 100-watt Retreat Solar kit is our most efficient solar charging kit available and is ideal for rooftops where space is limited. The Go Power! Retreat Solar Kit features 100 watts and 5.43 amps of charge power. For extended or full-time traveling, see our Overlander Solar Kit or an AC power system like the Solar Elite.

At the high end, the cost of a 40,000-watt DIY solar panel kit ranges in cost from \$63,400 to \$80,000. A more typical 8,000-watt DIY solar panel kit with 20 solar panels costs from \$15,000 to \$19,000.

Our smallest and fastest installation for a full solar system. This kit comes with everything needed to set up a small solar system with battery backup. This system is designed for a quick setup, taking less on average than 2 hours for ...

Planning to go solar with a 8-9KW grid tied system. Got quotes from a few companies in my area, one of which was Solar Wholesale, which is a DIY kit. The price difference was pretty small, less than \$1500 for the same size system between Solar Wholesale and a local company which does the install and everything, so it doesn't make sense to DIY.
