The Vatican City, which is home to the headquarters of the global Catholic church, is the smallest state in the world. The main audience hall in the Vatican already has a solar installation on its ...

In actual fact, the Vatican City is an independent state - a country within a country and is very similar to another one of Italy's city states - San Marino. Up until 1870, the Papacy controlled a huge swathe of Italy plus one or two other little outposts beyond the peninsula such as the Comtat Venaissin in southern France.

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome.

"The suspension of auditing activities," said a Vatican Press communiqúe on April 26, "is not due to considerations linked to the integrity or quality of the work initiated by PwC, let alone the intention of one or more entities of the Holy See to block the reforms in progress.". Rather, the statement continued, "issues have emerged regarding the meaning and scope of ...

Pope Francis has announced measures to transition Vatican City to using solar energy as its main source of electricity, as outlined in his latest motu proprio titled Fratello Sole, or "Brother Sun.". The Holy Father has tasked the relevant Vatican governing bodies to collaborate with Italian authorities and build an "agrivoltaic system," which would use land in Santa Maria di Galeria ...

The politics of Vatican City take place in a framework of a theocratic absolute elective monarchy, in which the Pope, religiously speaking, the leader of the Catholic Church and Bishop of Rome, exercises ex officio supreme legislative, executive, and judicial power over the Vatican City as it is being governed by the Holy See, [1] a rare case ...
