

Lesotho roofit solar energy

What is roofit solar energy?

Roofit.solar produces innovative solar roofs that combine a traditional Nordic design with modern solar technology. Roofit Solar Energy is producing first-of-its-kind solar metal roofs. The innovative 2-in-1 solution combines the roofing material and photovoltaic module. We believe renewable energy shouldn't come at the expense of aesthetics.

How much does Lesotho government contribute to solar power project?

Lesotho Government Contribution to this project is estimated at M220 million which will cover the costs of land compensations valued around M57 million, Tax obligations as well as operating costs of Lesotho Electricity Generation Company (LEGCO). The government is implementing 70MW solar electricity generation project at Ramarothole in Mafeteng.

What is ramarothole solar power project in Lesotho?

The project will be under the direct supervision of Lesotho Electricity Generation Company (LEGCO). The 70MW Ramarothole solar power project is planned to be implemented and built in two phases: Phase I: 30MWp with construction period of 18 months and Phase II: 40MWp to be completed in 2030.

What is a solar roof?

Our solar roof panels are a 2-in-1 building-integrated photovoltaic (BIPV) solution for your roof. The high-tech monocrystalline solar cells provide stellar performance even in low-light conditions. All the while, the sleek vertical lines of a classy black roof will give your house an aesthetic look and blend in seamlessly with any neighborhood.

Are solar roof panels suitable for sloped roofs?

Our solar roof panels are an ideal photovoltaic solution for sloped roofs with a minimum pitch of 10°; for both residential and commercial houses. Thanks to cutting-edge solar technology, our fully integrated solar roof panels protect your home from the elements while also producing sustainable energy from day one.

Why should you choose roofit solar roofs?

Due to nearly invisible solar modules and the aesthetic look of the lightweight vertical roof panels, Roofit.Solar roofs have also proved to be suitable for different architectural needs and urban protected buildings. The humble yet elegant Nordic design has been awarded numerous design and environment prizes.

Deshalb sind wir zuversichtlich, unsere langfristige Partnerschaft mit Roofit.Solar fortzusetzen." Greg Zavorotniy, Investment Director bei BayWa r.e. Energy Ventures . Roofit.Solar verzeichnete im Jahr 2022 ein deutliches Wachstum: Der Jahresumsatz verdreifachte sich, während sich die Produktion fast verdoppelte.
