

Monocrystalline solar panels are the best type of solar panel for residential installations. They're usually between 18-24% efficient, and they have a sleek, black appearance that can blend in with a lot of roof types.

Key Facts. The first ever Solar Farm in Lesotho. Phase I will supply 30MWP to the national grid and Phase II 40WMP. Client Name: Tuwana Construction Pty Ltd Footprint: 473 000 m² & 55Km 13KV transmission Line Country: Mafeteng District at Ha-Ramarethole, Lesotho Budget: M 70,000,000 Commissioned: April 2023 Completed: Work in progress

In recent years, the adoption of solar photovoltaic (PV) systems has been on the rise, driven by the desire for cleaner energy sources, reduced energy bills, and environmental consciousness. However, a lesser-known benefit of installing solar panels on your property is the potential increase in the value of your home.

Supports Lesotho's conditional NDC (2018) target to reduce GHG emissions by 35% by 2030 and install 1MW of solar PV mini-grids in rural areas. Ha Makebe is well aligned with Lesotho's National Energy Policy (2015), which aims to increase private sector engagement in energy sector development, especially renewable energy mini-grids.
