

What does Voltpost do?

Voltpost retrofits lampposts into a modular electric vehicle charging platform. What is your email? How can we help you? The lamppost electric vehicle charger is provided by Voltpost.

Where is voltpost deploying EV charging projects?

“Voltpost is developing and deploying EV charging projects in major U.S. cities, including New York, Chicago, Detroit and others, this Spring. We are ramping up as deployments across a diverse portfolio of customers in the private, government and utility customer segments.

What gives Voltpost an edge in the market?

Voltpost is hoping that it has a few things that'll give it an edge in the market. The team conducted extensive customer discovery interviews with the mayor's office in New York City, electric utility ConEd, and the city's Department of Transportation, as co-founder and CEO Jeff Prosserman shared with TechCrunch.

The TA35/TA36 Thermal-Magnetic Circuit Breakers are introduced by SCHURTER. The classic TA35 and TA36 are now available with an optional extra magnetic module, which, in addition to their thermal release (bimetal), ensures reliable protection in the event of extremely high overcurrent (short circuit) within milliseconds.

The Volt Post is India's First Net-Zero Committed B2B Media on Electronics, Tech Policies, Sustainability and Emerging Socio-Tech Chapters. We have been accoladed for being a major voice in creating valuable insights, reports, content, online and video-based marketing across Semiconductors, Smart Cities, ESDM Sector and IT& ITES sectors.

Infineon Technologies introduces the CIPOS Maxi Intelligent Power Module (IPM) series for low-power motor drives, adding to its 7th generation TRENCHSTOP IGBT7 product line. The revolutionary TRENCHSTOP IGBT7 1200 V and rapid diode EmCon 7 technology is the foundation of the new IM12BxxxC1 series. The most recent micro-pattern ...

Continental has recently reached a new production milestone from its Gurgaon plant. In its latest announcement, the company has revealed that the Continental Gurgaon Plant has reached 100 million Wheel Speed Sensor (WSS) and 10 million Electronic Brake Systems (EBS) production.

The 871 Series Ultra-High Amperage SMD Fuse was introduced by Littelfuse. The 150A and 200A fuse ratings offered by this cutting-edge new series complement the 881 Series and represent a major upgrade over the 125A maximum rating of the 881 Series.

From October 14-16, STMicroelectronics products will be on display at Industrial Transformation Asia Pacific

(ITAP 2024, Booth 3C07). According to the company, it will present over ten demos and its ecosystem partners in important industrial markets that cover edge AI use-cases for IoT and industrial automation segments, sensors for smart buildings and machinery condition ...

STMicroelectronics is set to showcase at electronica China 2024 (Booth E4.4600) from 8-10 July. ST will exhibit a wide range of cutting-edge solutions in Automotive, Industrial, Personal Electronics, and Cloud Infrastructure, with more than 50 interactive demos and advanced solutions, all designed to meet the evolving demands of customers and the market, ...

The recovery in end-demand for chips to fortify global semiconductor capacity in 2024. On the other hand the global semiconductor capacity in 2024 to log new heights as the latest reports of SEMI expect a vital increase of 6.4% in 2024. Also global semiconductor capacity in 2024 to witness 30 million wafers per month (wpm).

The programmable USB peripheral controller EZ-USB FX20, has been added by Infineon Technologies to its lineup of EZ-USB product line. The company in its official release states that the new addition makes it possible for developers to design USB devices that craves for hisghest performance for new applications such as AI and image processing. ...

For the fiscal year 2024, element14 has been named as TDK"s best-performing global distributor. element14 recently received the esteemed Global Performance Award, which is given to just one distributor worldwide, in appreciation of their exceptional collaboration with TDK and notable increase in TDK product sales.
