Who founded Little Sun?

In 2012 Eliasson and engineer Frederik Ottesen founded Little Sun to provide affordable clean energy to communities without access to electricity; to encourage sustainable development through sales of Little Sun solar-powered lamps and chargers; and to raise global awareness of the need for energy access.

Can I buy little sun products online?

Yes. Go to littlesun.com/shop to order Little Sun products through our website (Europe and USA only),or browse through our selection of retail shops around the world (some of which have their own web shops where it's also possible to order Little Sun products online). [store-locations/](#)

Does little sun save money?

term,Little Sun actually saves users money. Most people in of-grid areas use kerosene lanterns or flashlights for light after sunset. Kerosene fuel and the batteries used in flashlights are costly weekly expenses. An investment in Little Sun lamps is recovered in 2 to 3 months. Of-grid users then have free light for 5 years.

Olafur Eliasson"s Little Sun Has Big Plans for Bringing Light to All. Over a billion people don"t have access to electricity, but an ambitious project is fusing design, art and technology to help...
