

# Local companies that generate solar power on rooftops

What is a rooftop solar energy system?

Rooftop solar energy systems produce power locally, keeping power production and the economic opportunities that solar energy generates within the community. SETO funds research that helps maximize the value of rooftop solar systems for their owners.

Why do companies use rooftop solar?

Companies have also embraced rooftop solar not only to improve their environmental profiles but also to lower their operating costs. By 2014, U.S. businesses had installed more than 900 MW of rooftop solar across the country.

Can you get a job with rooftop solar?

Because rooftop solar can be installed in cities and towns, as opposed to remote locations, it offers job possibilities for local workers. Labor unions, community colleges, and nonprofits across the country have established job training programs and other community partnerships to train local workforces to install solar.

Which retailer has the largest solar potential?

Neumann said Walmart, the nation's largest retailer, possesses by far the largest solar potential. Walmart has around 5,000 stores in the US and more than 783 million square feet of rooftop space -- an area larger than Manhattan -- and more than 8,974 gigawatt hours of annual rooftop solar potential, according to the report.

Is rooftop solar going mainstream?

Rooftop solar is going mainstream. The falling prices and innovative financing structures mean that rooftop solar is more broadly available, and that the pool of customers comes from increasingly diverse economic backgrounds.

Are rooftop solar panels eco-friendly?

Installing rooftop solar panels allows consumers to directly benefit from the sun's green energy, which benefits the environment by reducing greenhouse gas emissions. The development and manufacturing of solar panels can be managed in eco-friendly ways to benefit the environment.

By 2014, U.S. businesses had installed more than 900 MW of rooftop solar across the country. These businesses include well-known companies such as Walmart, Apple, Costco, and Kohl's as well as many other ...
