

Macao microvast inc

What makes Microvast a great battery company?

Forward Thinking. Microvast produces innovative and reliable lithium-ion batteries with advanced technologies. With nearly two decades of experience in battery development, we're accelerating the adoption of clean energy with the installation of more than 31,000 battery systems in 34 countries.

Where is Microvast based?

Microvast is headquartered in Stafford, Texas. Our R&D Center is in Florida, and our manufacturing plants are in Berlin, Germany and Huzhou, China. Since our inception in 2006, Microvast has won awards for our pioneering achievements in lithium-ion battery technology.

What can Microvast do for You?

Since placing its first battery systems into operation in electric buses more than a decade ago, Microvast has expanded its business to serve a broad range of commercial, passenger and specialty vehicles, including mining, material handling, and power vehicles and equipment, as well as grid-scale energy storage applications.

Why is Microvast a leader in lithium-ion battery development?

With the success of our lithium-ion battery development, Microvast is recognized globally as an industry leader for battery innovation and technology. Our comprehensive portfolio of battery solutions continues to advance innovation and deliver measurable value to our customers and their operations.

Does Microvast offer fast-charging lithium-ion batteries?

Microvast provides a broad portfolio of fast-charging lithium-ion battery solutions, with different chemistries, performance characteristics and price points to meet the diverse requirements of its customer base.

What makes Microvast unique?

Microvast is renowned for its cutting-edge cell technology and its vertical integration capabilities which extend from core battery chemistry (cathode, anode, electrolyte, and separator) to modules and packs.
