

Macao ninedot energy

What is ninedot energy?

With sites in the Bronx, Brooklyn, Queens and Staten Island as well as Westchester County and Long Island, NineDot Energy is helping to make our local power grid cleaner, more resilient, more equitable and less costly, supporting New York's energy transition. NineDot Energy combines "outside-the-box" thinking with collaboration and execution.

Why did ninedot invest in Carlyle?

Carlyle's investment will enable NineDot to further advance its leadership position in providing community clean energy solutions in New York and beyond." David Slutzky, Founder and CEO of Fermata Energy said, "To enable the transition to a clean energy economy, abundant energy storage must be deployed quickly and at scale.

Why is ninedot a good place to work?

NineDot's first battery energy site in the Northeast Bronx went live, ready to strengthen the local power grid and provide stable, reliable and resilient power to the surrounding community, and Starbucks became our anchor subscriber. We were named #5 on Crain's New York Business 2023 list of 100 Best Places to Work in New York City.

How much money does ninedot have?

When combined with existing project financings from CIT, SMBC, and NY Green Bank, a division of the New York State Energy Research and Development Authority (NYSERDA), among others, NineDot has now secured a capital base of approximately \$400 million.

What is ninedot & how does it work?

NineDot's name derives from the classic mathematical puzzle for sparking out-of-the-box solutions. David, Adam and Nalin combined their skills and experiences in clean-energy analysis, science and entrepreneurship to build exciting and important urban energy projects using "outside-the-box thinking.
