

Combine with black hole controllers for large storage issues, until you can make the big drives. If you can't make black hole storage yet, use storage drawers in their stead but be careful, storage controllers & storage bus is a TPS choke point, and can cause lag if one is overly dependent on them. This goes double for Stoneblock 2.

Connecting your ID system via Energy tunnels will allow you to wire everything to everything else. Input to draw power into the system to be stored in the batteries. Output to feed your machine. There is no capacity cap for input or output, but you are required to put an integer card in the output to go above the default RF/t. ... Stoneblock 2 ...

What is the best energy storage I can get atm? My Big Reactors setup gives me about 30kRF/tick. I always used Mechanism Ultimate Energy Cubes, but it's not enough for me. I heard EnderIO multiblock capacitors are laggy, is it true? Minefactory Laser Drill is a possibility, but it isn't a storage (obviously).

March 31 (SeeNews) - US firm Fluidic Energy said Wednesday it will supply 45 MWh of its advanced energy storage products for mini-grid systems to be deployed in remote villages and ...

The subreddit for all things related to Modded Minecraft for Minecraft Java Edition --- This subreddit was originally created for discussion around the FTB launcher and its modpacks but has since grown to encompass all aspects of modding the Java edition of Minecraft.

Have been trying to get this to work for a while now, Flux networks just doesn't seem to be working at all. I setup the network for RF use, put a plug on my energy cell with the side set to output, and put a point on literally anything that needs power and nothing happens it says there's 0 RF in the network.

Im playing on a private stoneblock 2 server and im struggling with storage space and automation. I have an ME network setup, but most of my bulk resources are being piped into drawers becuase i guess ME networks can get laggy when overtaxed and theres around 5-6 of us on the server. Im finding it very difficult to maintain all my supplies in a ...

I saved a lot of crafting time by copying items with the projectE energy condenser. Reply reply Top 1% Rank by size . More posts you may like r/ClashRoyale. r/ClashRoyale. Subreddit for all things Clash Royale, the free mobile strategy game from Supercell. ... Is there an infinite water source like the sink in stoneblock 2?

I was able to understand the Energy Condenser and such, but am lost on emc generation and using the Compressed Refined EMC Link. I see videos that people somehow manage to get 2 billion of a bunch of items using it, but am still confused on how. Any general help for emc on things such as power flowers or energy

collectors would be helpful!

Stoneblock 3 Early Game Power . Question So I'm fairly new to the modded scene and have never played with Create before. Can anyone help me out with what I am supposed to do for power gen early game? Waterwheels are simply not enough and I cannot for the life of me get a steam boiler to even keep itself running let alone an ore processing setup.

"In each gravity-based energy storage, a certain mass is moved from a lower point to an upper point - with the use of a pump, if water for example - which represents "charging" the storage, and from a higher to a lower point ...

yea, solar flux reborn has 7 tiers of solar panel that, in stoneblock, have EMC, and even higher tiers like waevern, draconic and chaotic, and Nutronium solar panels. Up to tier five is easy and the materials are readily available, but tier 6 requires dragons breath, and tier 7 takes dragon eggs. which without ProjectE would SUCK to make in ...

This new energy storage concept is being advanced by a Californian/Swiss startup company called Energy Vault as a solution to renewable energy's intermittency problem. The towers would store electricity generated by renewables when their output is high in windy, sunny conditions and release energy back to the grid when production falls as ...

Hi all, i recently started my stoneblock 2 journey and im kind off stuck in power generation. Currently have a Generator from Draconic Evolution and im trying to set my magmatic dynamo up, but i have no idea how to, especially since i am about to set up the ME drive quest line in the storage quests.
