Lilongwe - June 2024 - As the sun sets in most villages in Malawi, the dawn of darkness is also the dawn of anxiety for women, men, children, and particularly school-going children. Only 23% of Malawi's population has access to electricity. Many households must rely on battery-powered torches, candles, and kerosene lamps for lighting inside the house.

"Honest businesses will tell you exactly how much it'll cost to get and install solar panels. If you've been approached by someone offering to install solar panels at no cost or promising you'll never have to pay another electricity bill, be careful--it's likely a scam." Common Telltale Signs of Solar Panel Scams. 1.

Masshole here. Trinity did my solar panels about 5 years ago. You do take out a low interest 20 yr loan for the solar panels but a tax credit of \$6500 bucks and we get quarterly payments from some energy counsel. Technically you could pay off the loan with the money and savings on the electric bill-So it's a half truth.
