What is solar energy in UAE?

Solar Energy in UAE is a rapidly growing sector with a strong government focus on renewable energy. The UAE has set a goal to meet 7% of its energy needs through renewable sources by 2021, and solar energy is a key contributor to this target.

How is the UAE promoting solar energy?

The government has invested heavily in the development of solar energy infrastructure in the country, with a focus on large-scale solar power plants. The UAE has also implemented several policies to encourage the use of solar energy, such as providing incentives for businesses and households to install solar systems.
