

How much power does Saudi Arabia need?

Saudi Arabia has established a goal to source at least 50 percent of its power from renewable energy by 2030, expanding its capacity to 130 gigawatts (GW), 58.7 GW of which is expected to come from solar and 40 GW from wind. This target is the most ambitious of its kind among Gulf Cooperation Council (GCC) countries (Figure 1).

Will Saudi Arabia conquer the new energy economy?

This is why the Kingdom has introduced its Vision 2030, which aims to generate half of its electricity from renewable sources by that year. Saudi Arabia could conquer the new energy economy by leveraging its renewable energy capacity to produce green hydrogen.

How will Saudi Arabia contribute to green hydrogen supply in 2035?

With the region -- North Africa excluded -- expected to contribute nearly 14% of the global green hydrogen supply by 2035, he says the Saudis will play a leading role. The plants built now will be the first to benefit from reductions in electrolyzer costs and improvements in efficiency and scale.

Will Saudi Aramco fund energy solutions company?

This venture, named Energy Solutions Company, will also receive funding from Saudi Aramco, Gulf News reported. While the country may be well-positioned for this venture, it must also prepare for a future with reduced oil dependency. It could lead to severe economic disadvantages if it fails to do so.

Why is Saudi Arabia's break-even oil price rising?

But challenges remain. Saudi Arabia's fiscal break-even oil price--the price per barrel needed to balance the budget--has risen, indicating continued sensitivity to oil price fluctuations. Its external break-even oil price has also increased, reflecting ongoing reliance on oil exports to finance imports.

Does Saudi oil need a Value-Added Tax?

The Saudi government's introduction of a value-added tax (VAT) and successful debt issuances have already diversified revenue sources, lowering oil's share of total revenue to below 70 percent, even during periods of high oil prices. But challenges remain.

Merlin Entertainments CEO Scott O'Neil says there is "tremendous opportunity" in Saudi Arabia, and plans to expand the company's portfolio in Dubai. From Qiddiya to Neom, Saudi Arabia is creating a series of giga-projects and attractions as part of the Public Investment Fund's (PIF) Vision 2030. In an interview with The National at Legoland Dubai, O'Neil said: ...
