

The Sheinbaum administration recently unveiled its National Strategy for the Electric Sector, aiming to strengthen Mexico's state-owned companies. In doing so, it may have overlooked key economic, infrastructural, and technological challenges. In a new issue brief, nonresident scholar Rolando Fuentes explores the plan's potential benefits, risks, and gaps -- ...

New Mexico Gas Company is a member of the Emera family of energy companies. With headquarters in Albuquerque, we are the largest natural gas utility in New Mexico. Strategically situated between two large natural gas production basins, we operate in 27 of the 33 counties in New Mexico, maintaining 12,000 miles of pipeline and serving 540,000 ...

Background: On February 5, 2024, President López Obrador (AMLO) proposed significant changes to Mexico's energy sector through constitutional reform. This initiative is part of a broader agenda to enhance state control over strategic industries, particularly energy, which he considers crucial for national sovereignty. The reform aims to place the energy sector under the ...

The National Center for Natural Gas Control serves as Mexico's natural gas grid control centre. It is a decentralised body of the Federal Public Administration attached to the Ministry of Energy (SENER). CENAGAS operates with two roles: the first, acting as manager of the Mexican Integrated National Transportation and Storage System for Natural Gas (SISTRANGAS) and ...

Nearshoring offers Mexico a major economic opportunity; however, current policy hindering power expansion, energy transition, and private investment forestalls this prospect. A report by the Center for the U.S. and Mexico on their collaborative workshop series with Tecnológico de Monterrey dissects the power sector's critical role in nearshoring efforts and ...

Obrador led a fight against energy reforms that were aimed at drawing private investment to the massive state-run oil company, Pemex, and in 2024, the frontrunner in the race to replace him, Sheinbaum, chose the ...

11 11; Do you recall the unsolicited lease request the Bureau of Ocean Energy Management (BOEM) received from Chicago, Illinois-based developer Hecate Energy this summer for an area in the Gulf of Mexico?. BOEM remembers, and now it has some competitive interest in an area on the Outer Continental Shelf that dozens of other companies have ...

According to Energy Institute Statistical Review of World Energy 2024 Report, total primary energy consumption in Mexico in 2023 amounted to 8.45 exajoules: around 45.4% of which was from oil; 41.5% from natural gas; ...

Mexico's government has approved a new energy reform aimed at strengthening PEMEX and CFE. The reform, promoted by MORENA and now led by President Claudia Sheinbaum, seeks to make amendments to the 2014 Energy Reform implemented by Enrique Peña Nieto, giving state companies back their leading role in Mexico's energy sector.

MONTERREY, Mexico--For the past 20 years, a 1,100-megawatt power plant owned by Spain's Iberdrola SA outside Mexico's industrial capital has kept the lights on for scores of companies such as ...
