How many microgrid projects to watch in 2022?

2022 looks to be a big year for microgrid progress and innovation. Here is the Microgrid Knowledge list of 22 microgrid projects to watch in 2022. Last year one of the most read articles on Microgrid Knowledge was "21 Intriguing Microgrid Projects to Watch in 2021," so this year we're offering up a new list for 2022.

What is the \$10 million microgrid demonstration initiative?

The \$10 million Microgrid Demonstration Initiative (MDI) supports the development and implementation of microgrid demonstration projects. These projects address key microgrid sector challenges. They also contribute to the unlocking of the microgrid sector in Victoria. The MDI grant program funding supports statewide microgrid projects.

Why did we choose a microgrid project?

The microgrid industry has been busy -- there was no shortage of projects to choose from. In fact, our initial list netted twice what we needed. Since it's 2022 not 2044, we had to do some serious culling. We chose these projects for their innovation, ability to serve as models and demonstration of microgrid benefits.

What are microgrids & how do they work?

They can incorporate renewable energy generation (for example, from solar panels or wind turbines) as well as battery energy storage. Some microgrids can operate independently of the grid during power outages (also referred to as islanding), which can be particularly helpful for communities in regional and rural settings.

What is the try microgrid project?

The project increased the number of houses with solar PV and batteries on a 'single wire earth return' (SWER) powerline, common in rural and end-of-grid locations across Australia, and included control technology to manage network security. The TRY Microgrid Project was completed in July 2021.

What is a microgrid in San Diego?

The microgrids will include solar, storage and electric vehicle charging. Candice Yu, Shell New Energies business development advisor, and Lindsey Hawes, San Diego's municipal energy program manager, talked about the project at our Microgrid California forum in October. You can watch it [here](#). 2.
