

Why is Moldova imposing a state of emergency?

More than half the world's population sees AP journalism every day. Moldova's parliament has voted in favor of imposing a state of emergency in the energy sector over fears that Russia could leave the European Union candidate country without sufficient natural gas supplies this winter.

Does Moldova have a good energy sector?

Moldova is also on the right path to developing a sound institutional structure in the energy sector, informed by better statistical data. The National Bureau of Statistics (NBS) is commended for its efforts to improve energy data collection and reporting.

Does Moldova have a new energy policy?

Moldova has committed to implement reforms embedded within the European Union's Third Energy Package, a suite of legislation adopted in 2009 aimed at creating integrated and competitive energy markets for natural gas and electricity.

What are the sources of electricity and gas imports in Moldova?

The sources of electricity and gas imports are not diversified and crucially depend on gas supply from Russia and electricity supply from the Moldavskaya GRES power station, which operates beyond the control of the Moldovan government.

Where does Moldova get its electricity from?

Moldavskaya GRES (MGRES) in the separatist region of Transnistria supplies the vast majority of the remaining 80 percent of electricity. Moldova also imports electricity from Ukraine and Romania. For years Moldova's natural gas consumption almost exclusively relied on Russian gas imports.

Is energy security a priority for Moldova?

Energy security is a priority for Moldova. International financial institutions, including the World Bank, the European Bank for Reconstruction and Development (EBRD), and the European Investment Bank (EIB) finance many projects strengthening Moldova's energy security.
