Producem cu energie verde în fiecare companie, cu responsabilitate pentru mediul ...

Solar energy is one of the most important forms of renewable energy. It is safe and clean and does not produce harmful emissions. It is a natural source of energy that can be used to generate electricity for homes, private and governmental institutions by using solar panels that are a more efficient in producing energy to conserve consumption and save energy resources.

The scheme was launched by Prime Minister Narendra Modi on February 15, 2024. Under the scheme, households will be provided with a subsidy to install solar panels on their roofs. The subsidy will cover up to 40% of the cost of the solar panels. The scheme is expected to benefit 1 crore households across India.

Step 1: Initiate Application. The solar installer begins the application in the portal by entering the system information and customer contact information for the project. The 200% Rule for solar ...
