Rosen Solar OPzV series are valve regulated lead-acid cells which use a combination of tubular positive plate woven gauntlets, pasted negative plate design and GEL electrolyte using advanced filling techniques in production which assure superior service life and excellent battery reliability. The battery has excellent cyclic performance and charge acceptance ability.

Rosen Solar AGM series are valve regulated lead-acid cells which use a combination of tubular positive plate woven gauntlets, pasted negative plate design and AGM electrolyte using advanced filling techniques in production which assure superior service life and excellent battery reliability. The battery has excellent cyclic performance and charge acceptance ability.
