How much does a 4 watt solar system cost?

As of January 2022, the average cost of solar in the U.S. is \$2.77 per watt (\$11,080 for a 4 kW solar system). That means the total cost for a 4,000-watt solar system would be \$8,200 after the 26% federal tax credit discount (not factoring in any additional state rebates or incentives).

How much does a 4KW Solar System cost?

The typical cost for a 4kW solar system is around \$8,000. It is essential to note that prices for solar systems have significantly decreased over the past decade. As advancements in technology have made solar panels more efficient and affordable, the barrier to entry for homeowners interested in solar energy has diminished.

How much does a solar system cost?

This means that homeowners can earn money for the extra electricity their solar system produces. With the current electricity costs, it is possible to achieve a 20% return on investment per year based on the panels' cost. The typical cost for a 4kW solar system is around \$8,000.

How much electricity does a 4KW Solar System use?

The average US household uses about 10,800 kWh each year. As you can see, a 4kW installation will produce roughly half of the electricity an average US household needs. How many solar panels is that? Most solar panels for residential installations are around 265 watts, providing a good balance between efficiency and cost.

Can a 4KW Solar System be sold back to the grid?

Any excess solar energy generated by the 4kW system that is not used can be sold back to the grid. This means that homeowners can earn money for the extra electricity their solar system produces. With the current electricity costs, it is possible to achieve a 20% return on investment per year based on the panels' cost.

How big is a 4KW Solar System?

Each solar panel typically has a size of 17 square feet. Therefore, when considering a 4kW solar system that requires a minimum of 13 panels, the total footprint would be approximately 227 square feet. It is crucial to consider the available space on your property when planning to install a solar system of this size.
