

Does Montenegro have a national energy and CLI-mate plan?

Montenegro is still finalizing its draft National Energy and Cli-mate Plan (NECP). Montenegro has not defined the 2030 climate target in its na-tional legislation,nor in the draft NECP. It should align with the 2030 targets set by the Energy Community. There is a legal basis for the national inventory system.

What is the energy development strategy of Montenegro?

The Energy Development Strategy of Montenegro sets out objectives and defines mechanisms for the transition from the current energy system to a safe, competitive and environmentally acceptable energy paradigm by 2025. It also provides guidelines for the development of the energy sector with the aim of attracting investors.

Does Montenegro have an energy efficient home?

In 2023,the project Energy Efficient Home continued to support households to purchase heat pumps with interest-free loans. Montenegro is still finalizing its draft NECP,which must harmo-nize the 2030 energy efficiency targets with the 2030 targets set by the Energy Community.

Which energy projects have been subjected to an EIA in Montenegro?

Montenegro has not provided a list of energy projects that underwent screening and were subjected to an EIA. The de-velopment of the EIA, which should include an appropriate as-sessment for the Komarnica hydropower project, located within a candidate Emerald Site and the Dragi?nica and Komarnica Nature Park, was delayed.

Does Montenegro have a gas market?

Montenegro does not have a gas market. REMIT Regulation (EU) 1227/2011 is in place. Despite the non-existing gas market,Montenegro adopted the supply rules for natural gas. Initially scheduled for 2019,the adoption of the new Law on Cross-Border Energy Infrastructure projects,intended to trans-pose Regulation (EU) 347/2013 is pending.
