

Why did Montenegro not issue energy permits?

Montenegro's Ministry of Economy did not plan to issue energy permits in its Energy Licensing Plan for 2019 because the country is already close to reaching its national target of 33 percent of produced energy coming from renewable energy sources (RES) in final energy consumption. The passage does not provide information on why Montenegro did not issue permits for other reasons.

Why is Montenegro investing in oil and gas?

Montenegro invited international oil and gas companies to bid on licenses to explore its offshore coast based on the seismic data which showed favorable conditions for hydrocarbon deposits. In late 2013, this investment in oil and gas took place.

Is biomass a source of electricity in Montenegro?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Montenegro: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

ACT is taking control of their energy and saving 92% on their utility bill with Motive Energy's solution. The biggest thing for us was the money we saved. We reduced our utility costs by 92% and it pays itself off in under 3 years. With that kind of return, the decision was obvious - Micheal Nelson, VP/GM of ACT. With energy costs on the rise and
